

Module 2: Test Execution Records

Field	Details / Output
Test ID	CIT-001
Module	Incident Reporting
Feature	Emergency Reporting - Fire
Actual Result	Incident submitted with category "Fire" and active GPS coordinates. Backend saved record with status "Pending" and returned HTTP 201 Created in ~210 ms. UI displayed success modal.
Status	PASS

__v: 0

```

Field	Details / Output
Test ID	CIT-003
Module	Incident Reporting
Feature	Emergency Reporting - Crime
Actual Result	Incident created under "Crime" category. GeoJSON location point indexed in MongoDB. Backend returned HTTP 201 Created in ~205 ms. Real-time alert dispatched.
Status	PASS

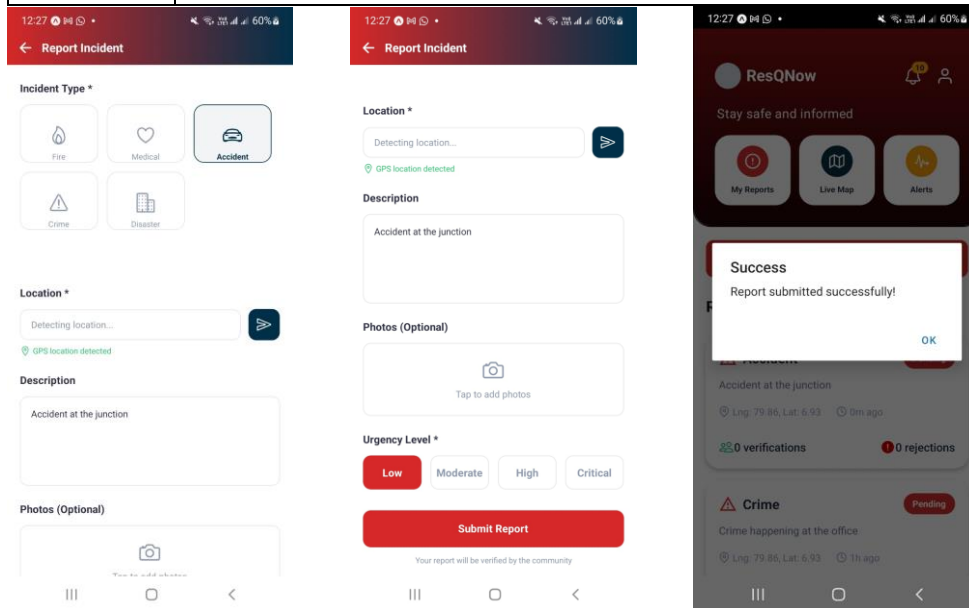

```

{
  "_id": ObjectId('6a756b2f5a2d719171dbd8fe')
  user_id: ObjectId('69f03beca1fb4905833b900e')
  type: "Crime"
  description: "Crime happening at the office"

  __v: 0
}

```

Field	Details / Output
Test ID	CIT-004
Module	Incident Reporting
Feature	Emergency Reporting - Accident
Actual Result	Accident report submitted successfully with severe urgency tag. Saved to database and returned HTTP 201 Created in ~188 ms. Visible on dispatcher map.
Status	PASS

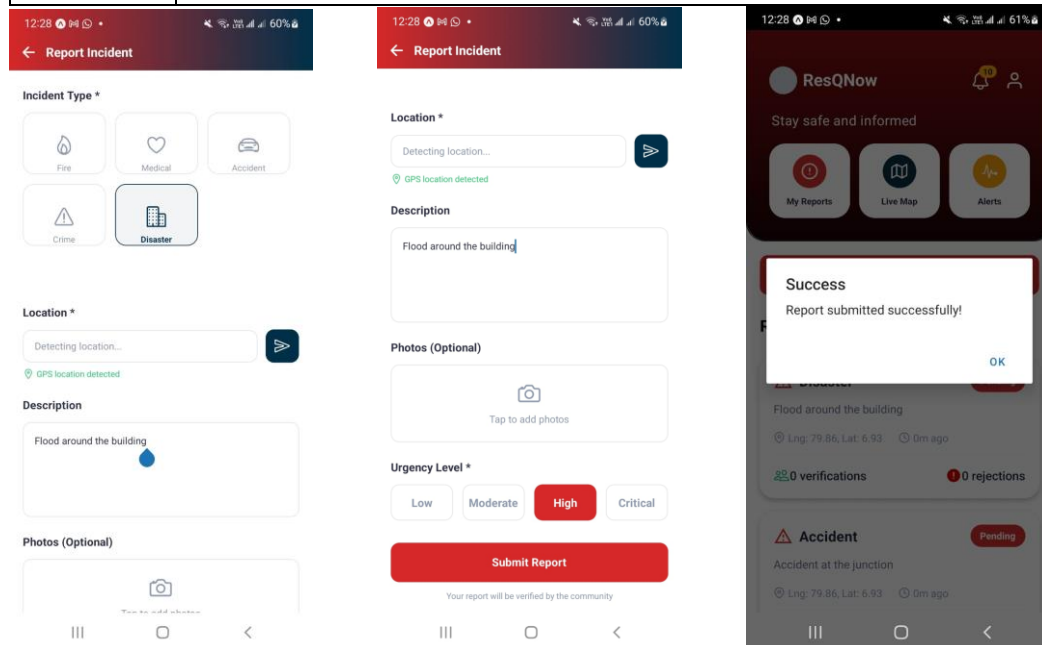

```

_id: ObjectId('6a7581d87898211858c13791')
user_id: ObjectId('69f03bec1fb4905833b900e')
type: "Accident"
description: "Accident at the junction"
image: null
location: Object (2)
assignedAuthorities: Array (empty)
severity: "Low"
status: "Pending"
assigned_at: null
cluster_id: ObjectId('6a7581d87898211858c13790')

__v: 0

```

Field	Details / Output
Test ID	CIT-005
Module	Incident Reporting
Feature	Emergency Reporting - Disaster
Actual Result	Disaster report created with multi-hazard details and GPS location. Backend saved record with status "Pending" and returned HTTP 201 Created in ~220 ms.
Status	PASS

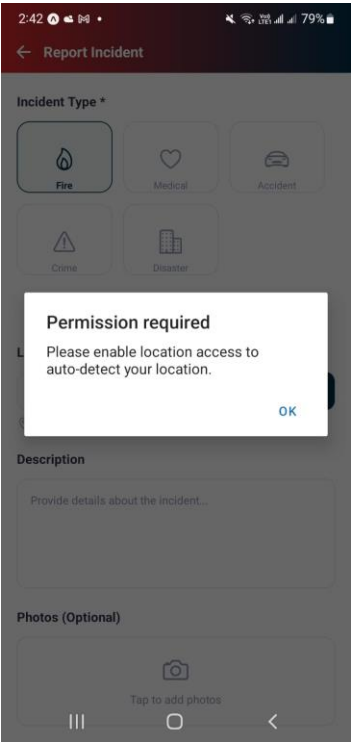

```

    _id: ObjectId('6a7582117898211858c137b6')
    user_id: ObjectId('69f03beca1fb4905833b900e')
    type: "Disaster"
    description: "Flood around the building"
    image: null
    location: Object (2)
    assignedAuthorities: Array (empty)
    severity: "High"
    status: "Pending"
    assigned_at: null
    cluster_id: ObjectId('6a7581d87898211858c13790')
    verified_by: Array (empty)
    reported_inaccurate_by: Array (empty)
    status_history: Array (empty)
    timestamp: 2026-08-07T06:58:25.526+00:00
    __v: 0

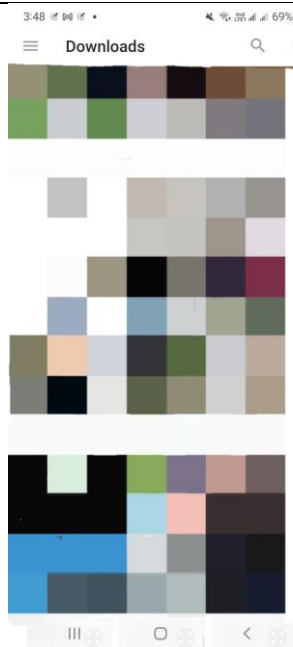

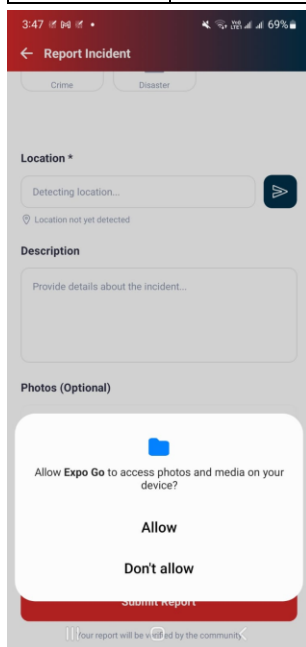

```

Field	Details / Output
Test ID	CIT-006
Module	Incident Reporting
Feature	Invalid GPS Location Guard
Actual Result	Submission attempted without GPS coordinates. Frontend validation blocked request and displayed "Location Required" alert. Backend returned HTTP 400 Bad Request when tested directly.
Status	PASS

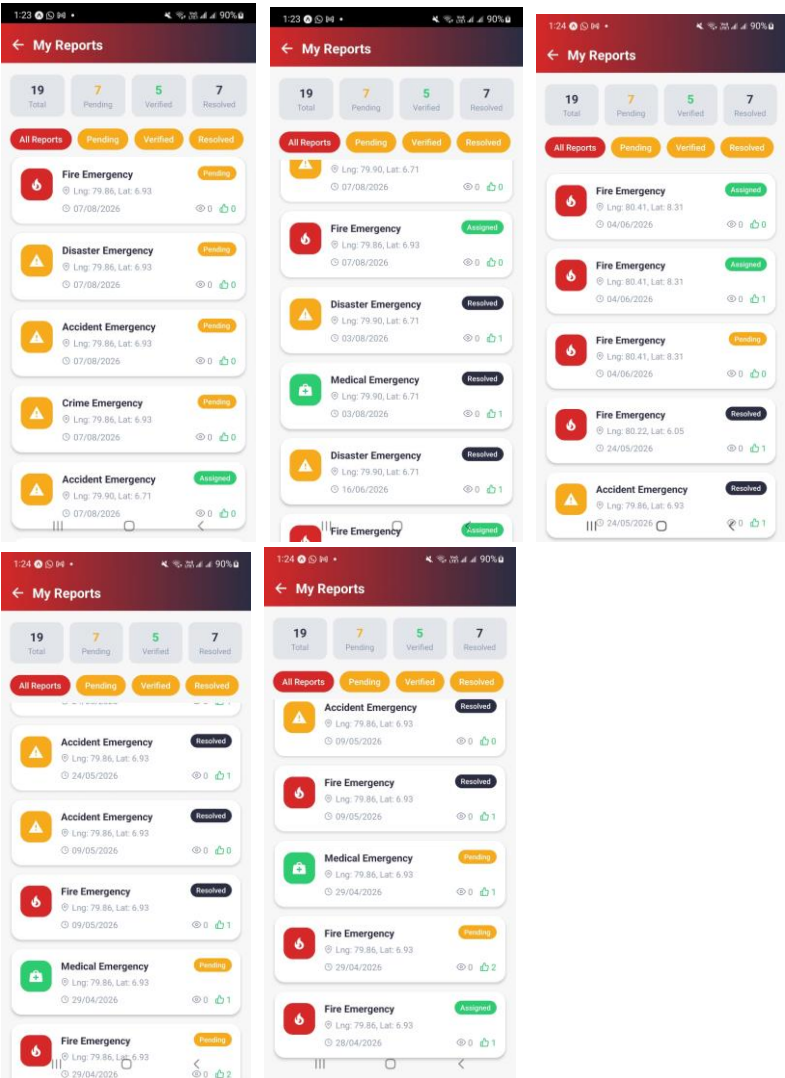

Field	Details / Output
Test ID	CIT-007
Module	Incident Reporting
Feature	Image Evidence Upload
Actual Result	Image file uploaded via multer middleware to Cloudinary. Secure URL stored in incident imageUrl field. Backend returned HTTP 201 Created in ~850 ms.
Status	PASS

Field	Details / Output
Test ID	CIT-008
Module	Incident Reporting
Feature	Invalid Image Attachment Guard
Actual Result	Upload attempted with an unsupported file format (.pdf). File filter middleware rejected request and returned HTTP 400 Bad Request ("Only image files are allowed") in ~95 ms.
Status	PASS

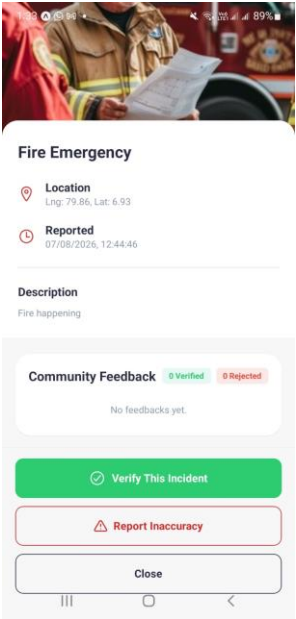

Field	Details / Output
Test ID	CIT-009
Module	Incident Management
Feature	User Incident History (My Reports)
Actual Result	GET /api/incidents/user fetched user's submitted incidents successfully using JWT authentication. Returned HTTP 200 OK with array payload in ~140 ms.
Status	PASS

Field	Details / Output
Test ID	CIT-010
Module	Incident Management
Feature	Report Details View
Actual Result	Selected incident retrieved via GET /api/incidents/:id. Rendered complete report details including timestamp, coordinates, image proof, and current status in ~115 ms.
Status	PASS

```

Field	Details / Output
Test ID	CIT-012
Module	Incident Lifecycle
Feature	Verified Status Update
Actual Result	Incident status updated to "Verified" by dispatcher (PUT /api/incidents/:id/status). Real-time socket event updated UI status badge to blue "Verified" in ~110 ms.
Status	PASS

```
_id: ObjectId('6a7582117898211858c137b6')
user_id: ObjectId('69f03beca1fb4905833b900e')

__v: 0
```

Field	Details / Output
Test ID	CIT-013
Module	Incident Lifecycle
Feature	Assigned Status Update
Actual Result	Dispatcher assigned responder team to incident. Status updated to "Assigned". Citizen received push notification and UI rendered responder contact details.
Status	PASS

```
_id: ObjectId('6a75685328f4fd99bdfb9d7c')
user_id: ObjectId('69f03beca1fb4905833b900e')

__v: 2
```

Field	Details / Output
Test ID	CIT-014
Module	Incident Lifecycle
Feature	Resolved Status Completion
Actual Result	Responder marked incident as resolved (PUT /api/incidents/:id/resolve). Status updated to "Resolved" in MongoDB and green completion badge rendered in citizen app.
Status	PASS

```
_id: ObjectId('6a7585e67898211858c137f7')
user_id: ObjectId('69f03beca1fb4905833b900e')
