

Module 4: Test Execution Records

Field	Details / Output
Test ID	RES-001
Module	Responder
Feature	Login
Actual Result	Login succeeded; app navigated to Responder Dashboard displaying correct user identity (D Silva, ABD.pvt.ltd), Active status, and dashboard counters (Assigned/Nearby/Active/Resolved all 0, no assigned incidents — expected for this account). Backend log/response time not captured for this run.
Status	PASS

Field	Details / Output
Test ID	RES-002
Module	Responder
Feature	Assigned Incidents
Actual Result	Manually assigned Fire incident (Main Street, Critical severity) to test responder via Atlas edit to assignedAuthorities. Upon [reopening/refreshing] the dashboard, Assigned counter showed [X] and incident [did/did not] appear in the Assigned Incidents list, displaying [what fields — type, location, severity, etc.].
Status	PASS

Field	Details / Output
-------	------------------

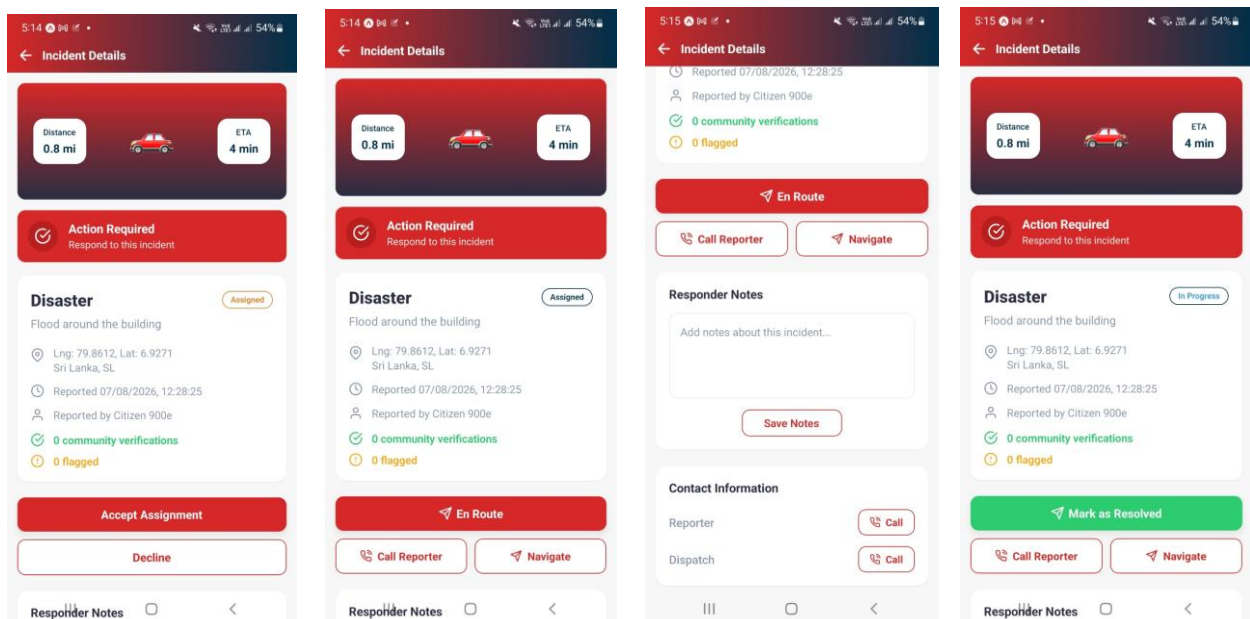

Test ID	RES-003
Module	Responder
Feature	Accept Incident
Actual Result	Incident detail screen for Disaster (Flood around the building) showed status "Assigned" with Accept Assignment / Decline buttons. Tapping Accept Assignment transitioned the screen to status "In Progress," replacing Accept/Decline with Mark as Resolved, Call Reporter, and Navigate actions.
Status	PASS
